

THOMAS CORTE'S

# FILTHY KINGS

NOT SO  
~~A VERY~~  
HANDY DANDY  
EXPANSION

## IN THE BOOSTER PACK

15 brand new Handy Dandy's.

Shuffle all these Handy Dandy's together with the rest of the Handy Dandy's. Good Luck!

## THE PLAGUE

If you have this card in your possession, you must place it face-up in front of you so that everyone can see it properly.

With this card in your possession, you can no longer lie. If you can't help but lie, you have to skip a turn. There are several ways to get rid of the Plague. If you (coincidentally) have the Plague Doctor in your possession, you can immediately discard it together with the Plague card. You are now cured of the plague. In addition, the Plague card can be bought by other players. The price may be negotiated. The "buyer" of the Plague card receives the Plague card plus the number of agreed crystals after approval. Players who do not have the Plague card, but do have the Plague Doctor are advised to buy this card, in order to earn some extra crystals.

## THE PLAGUE DOCTOR

With this card you can cure the plague. Discard this card and the Plague card. You are now cured off the plague.

## **QUACK**

This card can't do anything. Discard this card immediately.

## **EYE SEE EVERYTHING**

If you play this card, you can view all cards from one player of your choice. Only you can view these cards. You can share your findings with the group or lie about it.

## **EYE SEE YOU**

Immediately after purchasing this card, you must choose a player who can view all your cards. Only that player may view your cards. He may share the findings with the group or lie about it.

## **HAND IT ALL IN**

Choose a player who has to hand in all his Handy Dandy's (not the Plague card). The player must place these cards on the discard pile of the Handy Dandy's.

## **404 ERROR**

Immediately after receiving this card, you have to take the entire pile of playing cards that are now on the table.

## **WRECKING BALL**

Immediately after receiving this card, each player must give you a playing card.
