

THOMAS CORTE'S

FILTHY KINGS

Wearables

IN THE BOOSTER PACK

10 brand new Wearables.

THE RULES

Your Kings can wear these Wearables! It gives the Kings an extra skill that can be used throughout the round!

The same rules apply to these Wearables as the Handy Dandy's. If you buy a Wearable, you place it face down on the deck of playing cards. This Wearable is for the person who has to take the whole pile of playing cards that are on the table.

Unlike Handy Dandy's, Wearables do not cost five crystals, but only three crystals. This way you can skip a turn easier and cheaper, but you make someone else a lot stronger!

Shuffle the Wearables and place them in a separate pile next to the Handy Dandy's.

JEWELRY FOR THE RICH

You can take 1 crystal from the general supply every turn.

AWESOME UGLY TIE

The maximum number of cards you can have in your hand is 15. If you have to take the whole pile of playing cards, you take as many cards counted from above until you have 15 cards.

SMART WATCH

Buying a Handy Dandy no longer costs three crystals, but only two crystals.

SUNGLASSES

Instead of placing the Handy Dandy that you buy on the deck, you can take it directly in your hand.

MUSTACHE ON A STICK

If you have to take the whole pile of playing cards, you only have to take a maximum of eight cards.
